DISCLOSURES

Radon Gas - Notice to Prospective Tenant: Radon is a naturally occurring radioactive gas that, when it has accumulated in a building in sufficient quantities, may present health risks to persons who are exposed to it over time. Levels of radon that exceed federal and state guidelines have been found in buildings in this state. Additional information regarding radon and radon testing may be obtained from your county public health unit.

Lead Paint - Every purchaser of any interest in residential real property on which a residential dwelling was built prior to 1978 is notified that such property may present exposure to lead from lead-based paint that may place young children at risk of developing lead poisoning. Lead poisoning in young children may produce permanent neurological damage, including learning disabilities, reduced intelligence quotient, behavioral problems and impaired memory. Lead poisoning also poses a particular risk to pregnant women. The seller of any interest in residential real estate is required to provide the buyer with any information on lead-based paint hazards from risk assessments or inspection in the seller's possession and notify the buyer of any known lead-based paint hazards. A risk assessment or inspection for possible lead-based paint hazards is recommended prior to purchase.

ACKNOWLEDGEMENT

I/We, the undersigned, understand that _____ is the leasing agent and representative for the owner/landlord and that the leasing agent's fees will be paid by the owner/landlord. The undersigned acknowledge that this written notice was received prior to the undersigned receiving a lease agreement.

I/We declare the foregoing information is true and correct, and I/We hereby authorize you to conduct an employment and credit check and to verify our references.
